The Denver Journal's special cablegram from Liverpool indicates a fairly active cattle market at steady prices. The best American steers selling 13 1/2 @ 16c per pound dressed weight; supplies of American and Canadian stock are reported light. The British cattle offerings from the continent are not so plentiful as a few weeks ago.

British Grain Trade.

Wheat—Good demand; new No. 3, 35 1/2d, firm.

Corn—Fair demand; spot, 4s 2 1/2d; firm; March, 4s 2 1/2d, steady; April and May, 4s 2d, easy.

The Hull Lane Express in its review of the British grain trade during the past week says: Spring work is a stand still on account of frosts. The position is very serious. Wheat trade is dull, fine English red is 1d lower; sales of English wheat during the week were 64,421 quarters at 28s 4d, against 51,716 quarters at 31s 4d, during the corresponding week last year. There have been continued heavy deliveries of flour. Prices are not materially altered. The foreign wheat trade is gradually becoming active; supplies are unusually short and English equivalents 5s to 10s per quarter. Some sorts of important wheats are becoming dear, compared with native wheats. The difference is partly attributed to an alteration in late years.

LONDON MILLING MACHINERY.

4 cargoes of wheat arrived, 2 cargoes were sold, 3 were withdrawn and 1, California, remained. The trade forward is more active and prices are against buyers. The market to-day was slow for English wheats; 6d is more demanded and flour was 6d dearer, oats were 6d dearer.
